

>> *Our computer systems are developed to manage the unique needs of your company*

"Genisys software was easy for our staff to use, and we really make use of all its features."

- Comprehensive system can handle everything you rent, sell and service
- On-screen prompts and tool tips allow new employees to use the system immediately
- Add unlimited messages to any customer (for keeping track of what they did to become a "bad guy" for example). This can also be used to keep track of specific needs or requests on any customer, in detail.
- Handling of all prices and rate structures including special pricing by customer for rental or sales items automatically no matter who does the transaction
- Full maintenance tracking on all your rental equipment. Preventative maintenance scheduling is also included.
- Complete tracking of all cash and credit customers. You can add new customers to the system easily by either swiping the magnetic stripe on the back of their drivers license (in most states) or scanning the front of the drivers license and storing the image (works in all 50 states and Canada, including military ID's)
- Easy to use and extremely fast transaction processing including full Point of Sale functions
- Look up inventory by: description, alternate description, bar code ID, serial number, product type, or category/item number
- Look up customer by: customer/account number, business name, customer's first or last name, phone number, driver's license number or contract/invoice number
- Flexible kit function allows you to group relevant rental or sales items together as one package
- Fully bar code compatible
- Lost rental and sales tracking feature will allow you to fine tune your inventory based on requests that you cannot fulfill for a variety of pre-determined reasons
- Create automated on-screen warnings and messages to help out new employees or suggest "tag along" items
- Over 300 reports and a powerful query system to create information that is useful to your company
- Ability to add equipment to an existing contract
- Ability to handle partial returns and exchanges while keeping the contract open if desired
- System handles pickup and delivery scheduling with dispatch function and automated mapping ability
- Customer mailing labels and other marketing tools and reports
- Comprehensive availability / catalog screen allows you to quickly check inventory availability and rental rates... all on the same screen and at the same time for any date range, now or at any point in the future!
- Handles multiple locations with ease including inventory transfers, multi-store purchasing and renting other store's equipment
